

Invoicing and Payment Terms Policy

Purpose

This policy sets Harbourline Freight Systems' standard invoicing terms for customers, the late payment fee applied to overdue invoices, and when a purchase order is required before an invoice can be raised.

Standard payment terms

Invoices to standard customers are payable within 30 days of the invoice date. Customers on an enterprise agreement receive extended terms of 45 days, reflecting the longer internal approval cycles typical of larger organisations. Payment terms are set out on the face of every invoice and in the customer's master services agreement.

Customer tier	Payment terms
Standard	30 days
Enterprise	45 days

Late payment

An invoice not paid within its payment terms attracts a late fee of 1.5% of the outstanding balance per month, calculated from the invoice due date until payment is received in full. The late fee is disclosed in the master services agreement and applied automatically by the billing system; it is not applied at Finance's discretion.

Purchase orders

A purchase order is required before Harbourline will raise an invoice for any order above \$2,500. Orders at or below \$2,500 may be invoiced against a signed quote alone. Customers who cannot supply a purchase order above this threshold should contact their account manager to agree an alternative before work begins.

Disputed invoices

A customer disputing part of an invoice must raise the dispute with their account manager before the payment due date. Disputing part of an invoice does not extend the payment terms for the undisputed portion, which remains payable on the original due date.
