

# Partner Program Policy

## Purpose

This policy describes the tiers of Harbourline Freight Systems' partner program, the referred revenue required to reach each tier, the margin a partner earns, and how long a registered deal remains protected.

## Partner tiers

The partner program has three tiers: Registered, Silver and Gold. Partners enter the program at Registered tier and progress to Silver and then Gold as their referred annual recurring revenue grows. Reaching Gold tier requires a partner to have referred \$500,000 in annual recurring revenue, assessed on a rolling basis.

| Tier       | Requirement                       |
|------------|-----------------------------------|
| Registered | Entry tier                        |
| Silver     | Referred ARR milestone below Gold |
| Gold       | \$500,000 referred ARR            |

## Margins

Each tier earns a different margin on deals the partner originates.

Registered partners earn a 15% margin, Silver partners earn a 22% margin, and Gold partners earn a 30% margin. Margin is paid once the referred contract is signed and invoiced.

| Tier       | Margin |
|------------|--------|
| Registered | 15%    |
| Silver     | 22%    |
| Gold       | 30%    |

## Deal registration

A partner registers a deal with Harbourline before engaging a prospect, to protect their claim to the margin on that opportunity. A registered deal remains valid for 90 days from registration. If the deal has not closed within that window, the partner must re-register it to retain protection, which also gives the partner program team a chance to confirm the opportunity is still active.

## Tier review

Partner tier is reviewed periodically against the referred ARR thresholds

above, and a partner's tier may move up or down to reflect their current referred revenue.
