

Refund Policy

Purpose

This policy sets out when a Harbourline Freight Systems customer is entitled to a refund, either under the money-back guarantee on a new contract or on early cancellation of an existing contract.

Money-back guarantee

Customers signing a new annual contract may cancel within 30 days of the contract start date for a full refund of fees paid, provided the account has not exceeded the usage levels described in their plan. This guarantee applies only to new annual contracts and not to renewals, month-to-month plans, or add-on purchases to an existing contract.

Contract type	Money-back window
New annual contract	30 days
Renewal or month-to-month	Not eligible

Pro-rata cancellation

A customer cancelling an annual contract outside the money-back window may still receive a pro-rata refund of unused fees, provided they give 90 days notice of cancellation. The refunded amount covers the remaining unused portion of the contract term as of the cancellation date; it does not include any usage overage charges already incurred.

Usage overages

Charges for usage above a customer's contracted plan limits are non-refundable under any circumstances, including under the money-back guarantee or a pro-rata cancellation refund. Overage charges reflect actual consumption already delivered and are treated as earned revenue.

Requesting a refund

Refund requests are lodged with the customer's account manager, who confirms eligibility against this policy before Finance processes the refund to the original payment method.
