

Corporate Card Policy

Purpose

This policy describes who can hold a Harbourline Freight Systems corporate card, the monthly spending limits attached to each card, and how cardholders must reconcile their transactions.

Monthly limits

Standard corporate cards carry a monthly limit of \$5,000. Cardholders at manager level and above are issued a card with a monthly limit of \$15,000, reflecting the larger and more varied spend a manager typically approves on behalf of their team. Limits are set per cardholder and do not pool across a team.

Cardholder level	Monthly limit
Standard	\$5,000
Manager and above	\$15,000

Reconciliation

Every transaction on a corporate card must be reconciled in the Finance Portal, with a receipt and business purpose attached, within 10 business days of the transaction date. Reconciliation is the cardholder's responsibility even where a transaction was made on behalf of someone else.

Missed reconciliations and suspension

A missed reconciliation is recorded each time a transaction remains unreconciled past the 10 business day window. After 2 missed reconciliations, the card is suspended until the cardholder brings all outstanding transactions up to date with their manager's sign-off. A suspended card can be reinstated once the backlog is cleared.

Missed reconciliations	Outcome
2	Card suspended

Card use

Corporate cards are for business expenses only. Personal spend on a corporate card, even if reimbursed promptly, is treated as a policy breach and may be escalated to the cardholder's manager and People & Culture.
